Please call or email to register
Church Office: 245-3330
Pam Warner: 720-8997

Email: pastor@stjohnswels.com

Severe Weather Awareness Week

April 17th – 21st

STATEWIDE TORNADO DRILL
THURSDAY, APRIL 20th

(sirens will sound statewide at 1:45 p.m. & 6:55 p.m.)

The following information is provided by the
Minnesota Dept. of Public Safety
Division of Homeland Security & Emergency Management.

SIRENS

If you hear outdoor warning sirens sound, and the signal is a steady tone, it means that severe weather has been sighted in your area. Seek shelter immediately and turn on a battery-powered radio for more information. If you see that severe weather is approaching, don't wait for the sirens to go off before seeking shelter. In some fast-moving storms, the dangerous weather may pass through before the siren can be activated. Stay alert to severe weather!

TORNADO WATCH

A tornado or severe thunderstorm **watch** means that conditions are favorable for the development of tornadoes or severe thunderstorms. Many tornadoes originate inside severe thunderstorm cells.

When a watch is issued for your area, pay close attention to the weather. Make sure that everyone in your family knows the correct action to take if the weather gets worse. If weather becomes more threatening, or you see an approaching storm, immediately turn on your TV or radio to monitor events.

TORNADO WARNING

A tornado or severe thunderstorm **warning** means a tornado or severe thunderstorm **has been reported or is indicated by weather radar**. Warnings are issued for counties and/or communities. Warning information includes the tornado's location, direction and speed. If the warning is for your area, *you should take shelter immediately*.

WHAT TO DO AT HOME

If you are at home when a tornado or severe thunderstorm warning is issued, take shelter immediately. Go to the basement and seek shelter under the stairs or a sturdy piece of furniture. If you do not have a basement, seek shelter in a small room at the lowest level, in the center of the building. Bathrooms and closets are good potential shelters. Avoid rooms with windows.

WHAT TO DO AWAY FROM HOME

Some basic tornado safety rules apply if a tornado threatens when you are not at home.

- The best tornado shelter in any building is the lowest level.
- Look for pre-designated shelters in buildings you frequent.
- Smaller rooms, such as closets, rest rooms, or storerooms are good shelter areas.
- Position yourself beneath a piece of sturdy furniture.
- Cover your head and chest to protect yourself from flying debris.
- Seek shelter away from doors and windows.
- Long-span roof areas like those in malls and gymnasiums are especially vulnerable to tornadoes. Find a small room.
- **Don't run for your car**, you are safer inside a building than in the open.
- If a tornado strikes while you are in a car; get out of the car immediately & seek shelter in a depression or in a culvert.
- **Do not try to outrun the tornado.**

CITY WIDE CLEAN-UP DAY

SATURDAY, JULY 15th

The annual City Wide Clean-Up Day is offered in cooperation with LJP Waste and Recycle. For Clean-Up Day details visit the City website.

Know what's below.
Call before you dig.
